## **DETAILED ACTION**

### ***Response to Amendment***

Applicants' amendment filed March 1, 2007 has been entered. The finality of the previous Office Action has been withdrawn.

The indicated allowability of the subject matter of previous claim 20 is withdrawn upon further consideration.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 16-19 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over "Preparation and Characterization of TiO<sub>2</sub> fiber and its photocatalytic properties" (Hereinafter Nam), for reasons of record.

Nam is as set forth in previous Office Actions. In addition, it is noted that Nam teaches that the TiO<sub>2</sub> is present in amounts ranging from 5-30 wt%. See page 5 and Figure 8.

Art Unit: 1774

Accordingly the teachings of Nam anticipate or in the alternative render obvious the invention as claimed in the present claims. There is no factual evidence to the contrary on this record. Applicants are invited to provide such evidence.

4. Claims 16-19 and 36-38 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over "Preparation TiO<sub>2</sub> Fiber and its Photocatalytic Properties" (hereinafter Kim).

Kim is as set forth in previous Office Actions. In addition, Kim teaches that the TiO<sub>2</sub> can be present in amounts of 15 wt% and 30wt%. See for example, page 272.

Therefore, the teachings of Kim anticipate or in the alternative render obvious the invention as claimed in the present claims. Applicants are invited to provide such evidence.

5. Claim 16 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

6. Claims 28-35 are allowed.

### ***Conclusion***
